

Service providers

The trustee of the fund does not directly employ any staff but instead outsources the activities required to support the fund’s operations and management to a range of specialist service providers. Each outsourced provider is subject to an assessment process prior to appointment, as well as ongoing reviews and monitoring in accordance with the outsourcing agreements that the trustee puts in place for each provider. The trustee’s current service providers are outlined below.

Group Super is planning to complete its merger with Australian Retirement Trust, as well as the Commonwealth Bank of Australia (UK) Staff Benefits Scheme (for a small group of members who were formerly employed by the bank in the UK), on the anticipated date of 26 October 2024. Service provider agreements will be progressively ceased as the merger is completed.
